Overview

The SemiView SV-4601 is a 46" transparent LCD display with a built in LED backlight and switchable smart glass. When powered off, the glass becomes transparent and allows around 90% light transmission. Once powered on, the unit acts as a normal LCD monitor.

Features

Resolution: WXGA (1366 x 768)
Pixel Pitch: 0.7455(H) x 0.7455(V)
Display Colours: 8-bit - 16.7M colours
Contrast Ratio: 1000:1 (Typ.)
Input: HDMI
Power Supply: 110 - 240V AC
